

VSE's Corrosion Control Team (C2T) Provides Corrosion Removal and Prevention for Fleet Vehicles/Equipment

Mission Statement

VSE's C2T provides corrosion solutions to maximize equipment readiness while minimizing total cost of ownership

Our Offering

- Our mobile units do the work at your location
- The application is non-intrusive to your equipment
- We use eco-friendly corrosion inhibiting materials

Program Benefits

- Increased equipment availability
- Reduced total ownership costs
- Extended life = more time between repair or replacement

Experience

- We provide Corrosion Control Teams (C2T) world-wide
- We have over eight years experience treating and preventing corrosion on military equipment
- We've serviced over 350,000 pieces of military equipment

Bottom Line

Your equipment is on the road longer and not in the shop for repairs

Ask VSE how we can save you \$\$\$ and keep your fleets on the road
